## Experience

### IBM

Brazil

#### Associate Application Developer

2022 - 2023

Developed and maintained APIs and dependencies for Itaú, their largest Brazilian financial client.

- Enhanced workflow and user experience of the operations team, and reduced infrastructure costs by migrating a comprehensive legacy service to a cloud-native application.
- Maintained an NPS consistently above 8, while being the only IBM developer on the client team.
- Technologies include C#, .NET, xUnit, AWS, Java, JUnit, Cypress, SonarQube, Fortify, and Splunk.

#### Associate Application Developer Intern

2021-2022

Developed a brand-new cloud-native application for IBM Brazil's HR department.

- Integrated employee data and promotion processes, enhancing HR department workflow.
- Managed repositories, pipelines, cloud environments, and databases.
- Collaborated in a team following agile methodologies, guiding daily standup meetings, and assisting other interns with development issues.
- Technologies include Angular, HTML, CSS, JavaScript, TypeScript, Java, Spring, Docker, and PostgreSQL.

---

## Projects

### Portfolio

[Website](#) · [GitHub](#)

Professional portfolio developed to showcase my projects, articles and more.

- Technologies include Next.js, React.js, TypeScript, Vercel, and Vercel Analytics.

---

## Education

Senac University Center, Systems Analysis and Development, 2023.

- Two-and-a-half years, degree program.

---

## Certifications

- AWS Cloud Practitioner (CLF-C01).
- Microsoft Azure Fundamentals (AZ-900).
