Júlio César Martins Xavier

LinkedIn · GitHub · Website · hi@juliomartins.dev

Software Engineer with **nearly 2 years of professional experience** building and optimizing web applications. Passionate about crafting **intuitive user experiences** and **clean**, **maintainable code** to empower both users and developers.

Experience

CI&T	Brazil - Remote
Software Engineer	2024 – Present

IBM	Brazil - Remote
Software Engineer	2022 – 2023

Delivered and maintained critical APIs and dependencies for Itaú, IBM's largest Brazilian financial client, ensuring smooth operations and high user satisfaction.

- Streamlined the operations team's workflow and user experience, by migrating a complex legacy service to a cloud-native application, also achieving cost savings for Itaú.
- Consistently maintained a **Net Promoter Score (NPS) exceeding 8**, demonstrating exceptional client satisfaction as the sole IBM developer on the team.
- Expertise in **C#, .NET, xUnit, AWS, Java, JUnit, Apache Kafka, Redis, Cypress, SonarQube, Fortify**, and **Splunk**.

Software Engineering Internship	2021-2022

Developed a cloud-native application for IBM Brazil's HR department, enhancing their workflow through improved employee data and promotion process integration.

- Managed code repositories, **CI/CD pipelines**, cloud deployments, and **databases**, ensuring a streamlined development process.
- Collaborated effectively within an **Agile** team, leading daily stand-up meetings and providing technical mentorship to fellow interns, fostering a supportive learning environment.
- Proficient in a broad range of technologies including **Angular**, **HTML**, **CSS**, **JavaScript**, **TypeScript**, **Java**, **Spring**, **Docker**, and **PostgreSQL**.

Projects

Portfolio   Website · GitHub

This portfolio website showcases skills and experience in web development. Built with modern technologies like **Next.js**, **React.js**, **Framer Motion**, **TypeScript**, **ESLint**, **Prettier**, and **Vercel**.

Sonny   Documentation · GitHub

Chatbot developed with **Python**, **TwitchIO**, **Colorama**, and Astro, aiming to enhance engagement with Twitch viewers.

Education

Senac University Center, Systems Analysis and Development, 2023.
- Two-and-a-half years, degree program.

Certifications

- **AWS Cloud Practitioner (CLF-C01)**.
- **Microsoft Azure Fundamentals (AZ-900)**.
